

KidsPark Immunization Record Form 2023-2024

(This form is required for EACH CHILD you are registering to use KidsPark.)

The Immunization Record form must be completed, signed and dated by your Health Care Provider. Please allow up to 10 business days for the form to be returned from your provider. These forms can be emailed to KidsPark directly by the health care provider. The KidsPark email is teachers@kidsparkdropin.org. If your child is returning from last year a new form is required.

The Immunization Record form provided by the Minnesota Department of Health states a parent signature is acceptable for children over 15 months that have completed immunization required by law for child care. KidsPark is **REQUIRING the form be completed, signed and dated by your Health Care Provider**. This is at the recommendation of KidsPark licensing authority. Parent/guardian signatures without a Health Care Provider signature will not be accepted and your child will not be able to attend until all forms are complete.

All families registering to use KidsPark care must have all immunizations required by the Minnesota Department of Health for child care in Minnesota, or have a plan in place with their healthcare provider to receive all vaccines within 18 months from initial enrollment date, including the dates on which the remaining doses are to be given. The only exception is a Medical exemption as documented by the child's healthcare provider. Families with conscientious exemptions to immunizations will not be able to register for care through KidsPark.

Many Health Care Providers have electronic medical records and may be able to provide the immunization record in a different format as generated by the health provider electronic data system. This is acceptable as long as the form lists all immunizations and is signed and dated by your provider.

**KidsPark requires a Health Care Provider signature –
parent signatures alone will NOT be accepted.**
